Mr. Wagner brought to the attention of

the Board the city jail matter. From the

brief discussion that ensued it appeared nothing had been done to comply with the re-quirement of Judge Guigon for the better

two years, named Lucius Shelton, otherwise called Seldon Anderson, who used to drive a wagon for Mr. George S. Stutz, doing business in the First Market, walked into Blakey's mill-pond, near Oakwood Cemetery, and drowned himself. His body was recovered shortly thereafter by a colored boy and a white boy. All efforts at resuscitation were fruitless. He was well esteemed by his lite employer and those acquainted with him. MANCHESTER NEWS.

A COLORED MAN SHOT-THE PARTIES TO THE CRIME ARRESTED. - Saturday night about 10 o'clock as a negro man named James Green was coming from Richmond to this city via Mayo's bridge he got into a difficulty with a party of white men, which resulted in his being shot through the body by a ball fired from a pistol. It entered the fleshy part of his back near the spine, passing through and lodging in the skin near the navel. He walked about one hundred yards after being shot and fell to the ground, when he was seen by some other colored persons that were standing on the street near him. They went to his assistance and carried him to his home, on Hull between Sixth and Seventh streets. Dr. W. R. Weisiger was called in and extracted the ball.

Chief-of-Police Lipscomb and Policemar Fitzgerald, upon information received from the wounded man and others, arrested that night and Sunday morning Messrs, George r. Green, Joseph Kidd, Pitman Engel, and Justavus Meredith, and lodged them in the station-bouse. The case was called in the Mayor's Court

yesterday morning, the evidence partly heard, and continued till the 20th instant on account of the critical condition of the wounded man. It appeared in evidence that as the colored

man and a colored girl named Lettie Harris, whom he was escorting along, crossed the bridge over the canal on this side they met with a squad of four or five white men, one of whom accosted the girl, but she made no response. He then cursed her; whereupon the colored man expostulated with him about such bad conduct. This led to an affray, in which the whole party joined. Mr. C. C. Farley testified that Gus. Meredith informed him that he had shot the co

lored man, and, further, that he asked him o loan him money enough to leave the city. During the fracas George F. Green was very severely besten about the back with a can which the colored man had in his hand. It s reported that the wounded man says that George F. Green is the same man that tired the pistol. Messrs. Kidd and Engel were bailed in the

sum of \$500 each, Green in the sum of \$750. and Meredith was committed to jail. The wounded man was doing as well as

could be expected at a late hour last evening. A MEAN THIEF .- About 2 o'clock yesterday evening a white man entered the residence of Dr. John H. Winfree and asked for something to eat; which request was complied with. A short while after his departure the Doctor's dinner-bell was missed, and bankrupt as a part of his homestead exemp. a servant girl, suspicioning the man, pursued tion the reversionary interest surrendered by and overtook him. She asked him for the A son of the Doctor, hearing of the state of affairs, pursued house, where he was locked up. He will

A number of Odd-Fellows from this city were also in attendance. The ceremony incident to the occasion took place publicly at the new Masonic hall. The names of the officers installed are William H. To BE PRESENTED .- At the coming term of the Hustings Court, which begins on Monday all parties who failed to take out licenses and are doing business will be presented before the grand jury.

[For the Dispatch ] We, too, should like to know if the inhabitants of the western suburbs, in the neighborhood of the new reservoir, "have no rights which the authorities of Richmond should regard." During the past winter the crossings (in two places particularly) where the excavations for the pipes intersected the road were almost impassable for buggies, much less for wagons and carts loaded with wood, or coal, or manure, or farmers' produce. This condition lasted for more than a month,-we think for two months-when a proper filling-in with the dirt taken out would have obviated the difficulty-and this the work of only a few hours. But it seems now to be the design of the "City Engineer" to establish a permanent obstruction to travel along the road, the continuation of Ashland street where it meets the Shields farm. This is a county road. An embankment thrown up at this point leaves a narrow pass for one vehicle, with no chance of two vehicles passing each other for the space of probably seventy-five yards, and in winter this single road-bed is almost impassable for the deep mud, there being no outlet for the water from rains. The authorities of Henrico should take action, in this matter, and if no one else brings it to their notice the writer intends to do so-HENRICO.
